TUATUA IS MAKING ITS  
WAY AMONG TAHITIANS

French Doctors, Finding a Leper Greatly Improved, Take Hold of the New Treatment.

Honolulu, March 22, 1902.

**EDITOR ADVERTISER:** As I see by your paper that the tuatua question is still in agitation, I hope you will kindly allow me space to say a little more concerning it.

By last accounts from Tahiti, Dr. Camp's leper patients were progressing so favorably under the treatment that the French doctors had taken the matter up. After close examination of a French patient, who they had previously found greatly afflicted with the disease, now so much improved, they applied to my sister, Mrs. Walker, for further information concerning the tuatua, which she readily gave, and also showed them the decoction from here and her plants all finely growing.

The doctors were very much interested in what they saw and heard, and obtained from her the papers that Dr. Camp had sent down, giving full directions for making the medicine and the treatment of the patients; and when my sister wrote, they were having the papers translated into French and Tahitian, in pamphlet-form, to be circulated throughout the land, with strong recommendations for the propagation and use of the tuatua.

This medicine will probably prove a boon to humanity in many ways, and be no more dangerous for its poisonous qualities than many other kinds of physic and tobacco, so commonly used by people not medical, saying nothing in regard to poison also found in various foods and beverages that we are every day taking! Finding it mentioned as a tonic when taken in small doses, my sister has tried it with good results in several cases, helping rheumatism in one instance. And we of Tahiti feel that in justice to Dr. Camp for all his patient study and success in administering the new discovery, we cannot speak too highly of his services so ably and kindly rendered, while he has accepted nothing for his trouble, thus practicing only for the love of science. We sincerely hope that he will meet with just appreciation for his experience here among his brother physicians and the afflicted Hawaiians.

Yours respectfully,  
TEUIRA HENRY.

ATHLETIC CHAMPIONSHIPS  
ARE VERY KEENLY COVETED

Field Day Events Close With a Plethora of Entries From Six Different Organizations.

**THE** entries for the Boys' Brigade field day, to be held at Kapiolani Park next Saturday afternoon, closed last night.

Six athletic organizations are represented and every event on the program has been filled satisfactorily. The competing clubs will be Honolulu Athletic Club, Kamehameha Athletic Club, Maile Hima Athletic Club, Y. M. C. A., Punahou Athletic Club, Artillery. The complete list of events and entries is as follows:

**100 YARDS.**  
H. A. C.—En Sul, Price, S. A. Crook, L. R. Crook.  
Kam.—Akana, Pa.  
M. I.—Hopkins, Platts, Punohu, Gay.  
Y. M. C. A.—Piereson, Mayall.  
P. A. C.—Kaulukou, Hulmes.  
Artillery—Wheeler.

This race will be run in two heats, as follows:  
First Heat—Platts, Kaulukou, Gay, Hulmes, Piereson, Punohu, Akana, S. A. Crook.  
Second Heat—L. R. Crook, Hopkins, Wheeler, Price, Pa, En Sul, Mayall.

First and second in each heat to run in final.

**550 YARDS.**  
H. A. C.—Cooper, M. Anderson, Williams, Sherwood.  
Kam.—Scharsch, Kamall.  
M. I.—J. Anderson, Gay.  
Y. M. C. A.—Kerr, Jenkins.  
P. A. C.—Brown, Allen, Ryeroft.  
H. A. C.—Holt, En Sul.  
Kam.—Hartbottle, Hamauku, Keala.

**100 YARDS HURDLE.**  
H. A. C.—Holt, En Sul.  
Kam.—Hartbottle, Hamauku, Keala.

**ONE MILE.**  
H. A. C.—Ayres, Fietas, Sylva.  
Kam.—Abraham, Patten.  
M. I.—B. Clark, Chilton.  
Y. M. C. A.—Oss, Mayall.  
P. A. C.—Brown, Ryeroft, Kincaid.  
Allen, Jordan.  
Artillery—Manis.

**120 YARDS HURDLE FINAL.**  
440 YARDS.  
H. A. C.—S. A. Crook, Williams, Sherwood, L. R. Crook.  
Kam.—Maloho, Scharsch.  
M. I.—Punohu, Alameda.  
Y. M. C. A.—Kerr.  
P. A. C.—Marcellino, Schnack, Gilman.

**220 YARDS HURDLES.**  
H. A. C.—Price, S. A. Crook, En Sul, L. R. Crook.  
Kam.—Akana, Pa.  
M. I.—J. Anderson, Platts, Hopkins.  
Y. M. C. A.—Piereson, Mayall.  
P. A. C.—Kaulukou.  
Artillery—Manis.

**220 YARDS.**  
H. A. C.—En Sul, Holt.  
Kam.—Hartbottle, Pa, Hamauku, Keala.

**RELAY RACE.**  
H. A. C.—Williams, Sherwood, L. R. Crook, S. A. Crook, Cooper, Sylva.  
Kam.—Scharsch, Pa, Maloho, Akana, Kamall.  
M. I.—Punohu, Alameda, J. Anderson, Clark, Hopkins.  
Y. M. C. A.—Kerr, Mayall, Piereson, Curtis.  
P. A. C.—Bailey, Brown, Williamson, Ryeroft, Campbell, Marcellino, Schnack.

The captains of the teams are as follows:  
H. A. C.—W. C. Crook; Kam., V. Lemmon; M. I.—P. Benson; Y. M. C. A.—F. Young; P. A. C.—W. Williamson; Artillery, Lieut. F. Behr.

Following are the team colors:  
H. A. C., red and white; Kam., blue and white; M. I., green and yellow; Y. M. C. A., red; P. A. C., buff and blue; Artillery, red.

Five points will be given for firsts, two points for seconds, and one point for thirds. The winning of the relay race will count ten points.

There will be six flights of hurdles. The track will be taped off in the 100-yards dash in order to ensure each man having a free course.

There will be a meeting of the Boys' Brigade Athletic Committee on Friday night to arrange final details.

**POLE VAULT.**  
H. A. C.—McCann.  
Kam.—Hardee, Kaal.  
Y. M. C. A.—Lainig.  
P. A. C.—Hulmes, Campbell, Kaulukou, Prouty.

**BROAD JUMP.**  
H. A. C.—Walsh, Ewallko.  
K. A. M.—Hartbottle, Pa.  
M. I.—Boyer, Paohale.  
Y. M. C. A.—Curtis.  
P. A. C.—Barley, Hulmes, Campbell, Dole.

**HAMMER THROW.**  
H. A. C.—Kanae, Ewallko, Dayton.  
Kam.—Richards, Apela.  
M. I.—Poho, McDuffy.  
P. A. C.—Crabbe, Robinson, Renear, Walker.

**RELAY RACE.**  
H. A. C.—Williams, Sherwood, L. R. Crook, S. A. Crook, Cooper, Sylva.  
Kam.—Scharsch, Pa, Maloho, Akana, Kamall.  
M. I.—Punohu, Alameda, J. Anderson, Clark, Hopkins.  
Y. M. C. A.—Kerr, Mayall, Piereson, Curtis.  
P. A. C.—Bailey, Brown, Williamson, Ryeroft, Campbell, Marcellino, Schnack.

The captains of the teams are as follows:  
H. A. C.—W. C. Crook; Kam., V. Lemmon; M. I.—P. Benson; Y. M. C. A.—F. Young; P. A. C.—W. Williamson; Artillery, Lieut. F. Behr.

Following are the team colors:  
H. A. C., red and white; Kam., blue and white; M. I., green and yellow; Y. M. C. A., red; P. A. C., buff and blue; Artillery, red.

## BUILDING FOR ODD FELLOWS OF EXCELSIOR

**THE** proposed building for Excelsior Lodge No. 1, I. O. O. F., will be an ornament to upper Fort street, and will be fully in keeping with the new structures which are now being erected in that portion of the city. Located at the corner of Fort and Chapin lane, which will be widened, it will have excellent light and will be seen to advantage. The perspective plan of the building is now on view and has attracted much attention.

The style of architecture is Classic Renaissance, having a dignified and impressive effect in keeping with its purposes.

The first story contains seven stores, with modern plate glass fronts, each store having its dry, well lighted basement, with direct access thereto, and freight elevator service.

The main entrance is wainscoted with Tennessee marble and paved with ceramic tile, and has a repository for bicycles adjoining. The broad main staircase is ornate, the material being duplex copper plated cast iron with slate treads. The second story is devoted to well lighted and ventilated offices, singly and in suites.

The third story is given up entirely to lodge purposes, with the accessory ante-rooms, and also contains a large social hall, with beautifully groined and vaulted ceilings. The two lodge rooms are also treated with vaulted ceilings having a fine architectural effect, and in these three large apartments special attention has been given to ventilation with a view to attaining

continuous circulation of air without draught. The ante-rooms and lavatories have special provision for ventilation, the latter having large ducts extending above the roof, with suction cowls.

Both the second and third stories have a continuous roofed balcony eight feet wide along the rear, communicating with the main corridor. This will prove a pleasant feature in the social gatherings.

The lodge has long had this project in contemplation, and the imperative necessity for adequate accommodation is apparent in the rapidly growing activity of the lodge. The designing and supervision of this building is in the hands of O. G. Traphagen, architect, and it will be a distinct addition to the architectural beauties of Honolulu.

It is rarely that water can be held directly responsible for starting a fire, but yesterday's rain ignited the blaze that did considerable damage at the old automobile stables on King street.

Lewers & Cooke are using the stables as a store house for lime, and hundreds of barrels of the stuff are piled up on the floor of the heavy stone building.

During the heavy rainstorm water was forced into the storeroom, and came in contact with the unslacked lime. Naturally intense heat was engendered, which in turn set fire to the wooden barrels and woodwork, and for a time it looked as if a serious conflagration might result.

An alarm was promptly turned in and the department arrived on the scene shortly before six o'clock. The smoke was belching from the windows and roof in volumes, while the interior appeared to be a mass of flames.

When the nature of the fire was seen, the firemen immediately recognized the danger of adding fuel to the flames by the further addition of water, and the ordinary fire extinguishing appliances were of necessity abandoned.

The burning barrels were removed, and after an hour's hard work on the part of the firemen, the fire was extinguished. Only about twenty-five barrels of the lime were rendered useless.

This decrease in the number of cases and deaths is regarded by the Health Department as a hopeful sign that there is at least an abatement in the outbreak, and that probably we have got over the worst of the trouble.

Last week there were seven cases reported and two deaths. The previous week there were seventeen cases and five deaths.

This decrease in the number of cases and deaths is regarded by the Health Department as a hopeful sign that there is at least an abatement in the outbreak, and that probably we have got over the worst of the trouble.

HONORS FOR  
DR. BRIGHAM

Foreign Scientists Recognize His Work.

THE ACTION OF A FAMOUS INSTITUTE

Curator of Bishop Museum Elected Honorary Member of Learned Body in England.

**I**N announcing the election of Wm. T. Brigham, the director of the Bishop Museum, as Honorary Member of the Anthropological Institute of Great Britain and Ireland, Prof. Haddon of Cambridge University, England, and president of the institute, writes:

"Dear Prof. Brigham: I was very pleased that a few days ago the institute formally acknowledged the great work you are doing for Oceanic ethnology by electing you an honorary member."

"We fully realize the difficulties that beset one isolated as you are, and we thoroughly appreciate your enthusiasm and ability, which have so successfully surmounted all the obstacles. May you long be spared to continue your studies and to enrich our beloved science."

"With best wishes believe me to be yours faithfully,  
"ALFRED C. HADDON."

Mr. J. Edge-Partington of the British Museum, who was here a few years ago studying in the Bishop Museum, also writes:

"I hope before you receive this you will have heard of your election as an honorary member of the Anthropological Institute of Great Britain and Ireland in recognition of your services to anthropology. I am so pleased to be among the first to write and congratulate you. May you long live to continue the useful work in that field of science which both you and I love so well."

LOOKED LIKE A  
FAREWELL SPREE

A Lively Gear Function Given in the Grill Last Night.

If Circuit Judge George D. Gear does not go to Washington he will have missed the finest start that has been given to any intending passenger here for some time. A dinner, which was supposed to be a farewell, was given at the Grill last evening. There were several men with good voices in the party, for when after the dinner the singing stage was reached, "Aloha Oe," "Moana Lani" and other favorites resounded to the delectation of quite an audience which collected on the opposite sidewalk.

Passers by aver that they could hear the word "Washington" frequently during the discussion which followed the dinner, and once a voice resembling that which is used in the delivery of charges in the circuit court, was heard to talk of "Old Roosty," who was declared to be "all right," and who had told somebody to "go ahead."

After the culmination of the musical features of the entertainment, in a popular hula tune, the members of the party emerged from the restaurant, be decked with leis, and entered hacks for a drive to another rendezvous, disappearing out King street with a following wave of unmelodious as the diners still tried to sing. In the party were: Judge George D. Gear, Fred Harrison, George Paris, James Sims, A. V. Gear, Bert Peterson and George A. Davis.

**Governor Is Serenaded.**

Captain Berger with the government band serenaded Governor Dole yesterday morning at his residence on Emma street as a farewell preparatory to his leaving for Washington in the Sierra today. In the afternoon another complimentary concert was given in the Capitol grounds. The band will also be at the dock today to play at the departure of the Sierra, and it is possible a tug will convey the musicians to the entrance to the channel to accompany the Sierra out to sea.

**The Pacific Cable.**

BRISBANE, March 14.—The cable steamer Anglia has left for Norfolk Island. She will lay the first section of the cable to connect Australia with Canada.

## The Auckland Quarantine.

AUCKLAND, March 8.—The following are the quarantine arrangements regarding the San Francisco mail steamer arriving off Auckland from Sydney: The port health officer will board the steamer at 6 o'clock on the morning of arrival, and if the passengers are found to be in good health, will allow them to go ashore immediately by tender. As soon as the steamer anchors a hulk will go alongside and tranship the New Zealand cargo; but no communication will be allowed between the hulk and the steamer. Passengers for San Francisco and other ports will be conveyed by tenders from the shore to the steamer, the present arrangement being that steamers will leave the ferry at half-past twelve p.m., and half-past one p.m., and passengers are advised to place their luggage on board the steamer timed to leave at the first named hour. Baggage to be landed at Auckland will be placed on board the hulk when convenient, and will be subject to eight hours' fumigation before being landed on the wharf.

**Fumigation of Mails.**

AUCKLAND, March 15.—Commencing with the mails arriving by the mail steamer Sierra from Sydney today, the fumigation of all mails will be carried out on board the steamers instead of at Motu, as hitherto. This change in procedure will, it is anticipated, reduce the delay to a minimum, and enable the mails to be landed at the postoffice much more expeditiously.

Captured by Boers under General Delarey, near Winburg, South Africa.
